

# **IMPORTANT INSTALLATION PROCEDURE**

Our High Definition PREMIUM Rigid Core Flooring has **approximately 30 different patterns.**

***Keep in mind, it is perfectly normal to see the same pattern repeated within a single carton, therefore you must work from several cartons to get access to all 30 patterns.***

These different patterns are packaged randomly in the cartons, and you **MUST LOOSE LAY** the flooring **USING SEVERAL CARTONS** to ensure the correct placement of the different patterns.

**If you skip this step, you will run the risk of installing the same patterns too close to each other.**

**Work from SEVERAL cartons AT ALL TIMES and visually place them to ensure adequate spacing of patterns that look the same.**

Thank you for purchasing our Rigid Core flooring, we know you will enjoy it for years to come.
